

Error

The screenshot shows the Ultima store checkout page. At the top, there is a navigation bar with links like Home, Search, and My Account. Below that is a search bar and a navigation menu. The main content area is titled 'CHECKOUT PAGE 2' and contains an error message in a red box: 'Error downloading the on-line credit card plug-in script. Can't locate Crypt/CBC.pm in @INC (INC path: C:/Perl/site/lib C:/Perl/lib) at (eval 42) line 63, #<undef> failed--compilation aborted at (eval 42) line 63.' Below the error message is a table of items:

QTY	DESCRIPTION	QUANTITY	PRICE	COST
1	LAMP0000 - 5W 1/4W	1	£1.55	£1.55
	Subtotal		£1.55	
	Shipping (UK Mainland - All Brands except Perovskite Batteries)		£1.89	
	Total		£3.44	

Below the table is a 'General Information' section with a dropdown menu for 'Select (REG)' and a 'Payment Method' section with a dropdown menu for 'Select (Pay)'. At the bottom, there are buttons for 'Shop', 'Cancel', and 'Next'.

executing the on-line credit card plug-in script. Can't locate Crypt/CBC.pm in @INC (@INC contains: C:/Perl/site/lib C:/Perl/lib . cgi-bin cgi-bin cgi-bin cgi-bin cgi-bin) at (eval 42) line 63. BEGIN failed--compilation aborted at (eval 42) line 63.
