

On-page SEO Check for Harrisontelescopes.co.uk

Crawling from: 06/10/16
Report created on: 06/10/16
Crawled pages: 2,118

Optimization overview

Check type	Result	Change*
Tech. & Meta	82 %	-/-
Structure	58 %	-/-
Content	55 %	-/-

* A change can be computed after the second crawl

History graph of optimization

This is the first crawling. A history graph of optimization is available after the second crawling.

Project Checklist

Check	Result
Charset encoding	iso-8859-1
Average links per page	135
www. redirect	OK
Avg. load time	0.11
Only for adults	No
Domain blacklisted?	No
Language	en
Transfer encoding	No
Software version	
Average amount JS files	4
Average amount CSS files	2

Important todos for optimization

Technical problems

6 pages have duplicate page titles

37 page/s could not be checked due to technical problems

9 pages have a duplicate meta description

114 pages have titles that are in need of improvement.

We found pages with robots meta tag "nofollow"

78 pages have problems with H1 headings

Problems with headings were found on **163** pages

337 pages have problematic meta descriptions

1 URLs have parameters

305 pages have problems using strong or bold tags properly

On **1,398** pages an alt attribute for an image is missing

Sitestructure problems

1,398 pages contain link anchors for internal links, which should be improved

8 external links have problems

553 internal redirects were found

Content problems

2 pages have duplicate content problems

286 pages were found, which have a similar keyword optimization and compete with each other

On **57** pages keywords from the title are not used in the page's text part.

On **185** pages no checkable text content was found

On **900** pages only little text was found

On **720** pages content was found, which also exists on other pages of your website

On **472** pages only some paragraphs were found

On **729** pages unique paragraphs are used more than once

On **137** pages typos were found
